GLOBAL EXPERTS IN DATA PRIVACY AND PROTECTION

Comprehensive data protection laws in 54 countries, coupled with a growing body of targeted state and federal privacy laws in the U.S. are forcing HR organizations to create, implement and sustain data privacy compliance programs. The launch of a project to build a global HR system or database typically brings compliance needs to a head, with management of data privacy requirements soon being recognized as part of the critical path to project success.

Jeitosa's advisors have over 25 years experience helping dozens of companies, ranging from small-to-medium-sized businesses to Global Fortune 50 firms, meet data privacy challenges. Meeting the requirements of European privacy laws, with their strong restrictions on transborder data transfers, is usually a top priority for HR project teams. Jeitosa's privacy experts can help you understand and evaluate the major compliance options. Our services are structured to provide a step-by-step process that allows you to understand the issues, determine a course of action, and implement solutions to ensure you achieve and remain in compliance. We help you find a cost-effective approach to privacy compliance best suited to your corporate objectives, operations, and culture.

Jeitosa's Data Privacy Certification Service Model

Jeitosa's Global Data Privacy Certification Service Model provides a variety of options for organizations to gain the education and develop a comprehensive strategy to data privacy and protection that ensures compliance with privacy legislation around the world.

Our Experience – Your Advantage

Many of the world's greatest companies have turned to Jeitosa Group International to help with their global business needs. Committed to excellence and total satisfaction, we help our clients expand their own capabilities, guaranteeing the results of all we do. Here are a few examples of our projects:

Project Profile: Aerospace Company — Data Privacy Assessment and Strategy

Designed and carried out a worldwide risk assessment, leading to the development of a three-tiered compliance strategy, by guiding the company in certifying for Safe Harbor, including privacy policy revision, implementation of notification requirements in Europe, revision of vendor contracts, and delivery of educational and training sessions.

Project Profile: Healthcare Organization — Global Employee Privacy Program

Developed a global employee privacy policy and designed the program and resources needed to implement the policy on a worldwide basis; guided the company in becoming the first major multi-national employer to certify for Safe Harbor; conducted benchmarking on training and privacy impact assessments, and developed laptop security and data retention policies.

Project Profile: Medical Products Organization — Safe Harbor Certification and Training

Started with a level-setting educational workshop, developed a model contract to meet an immediate compliance need of a French subsidiary, and guided the company with Safe Harbor certification; created training modules, developed a privacy policy, and assisted European units in updating and completing notifications to data protection authorities and employees.
